

Call for Contributions: The Micro-Aesthetics Gallery

Bridging Analytical Precision and Artistic Expression

As part of the AIE2027 Conference, we are proud to host a dedicated **Micro-Photo Gallery**. This exhibition seeks to transcend the boundaries of traditional data presentation by exploring the inherent artistry found within analytical studies.

We invite authors to submit imagery that captures the hidden world of their research, fostering a dialogue between scientific discovery and visual art.

Submission Requirements

To ensure a cohesive and high-quality exhibition, contributors must meet the following criteria:

- **Conference Registration:** Participation is open exclusively to registered authors of the conference. Each participant can contribute with 1 photo.
- **Imaging Modalities:** We welcome high-resolution captures obtained via **Scanning Electron Microscopy (SEM)** or **Optical Microscopy (OM)**.
- **Technical Specifications:** For printing and exhibition purposes, files must be submitted in a format suitable for **A3 dimensions** at a minimum resolution of **300 DPI**.
- **Narrative Element:** In the spirit of merging disciplines, each submission must be accompanied by either a **metaphorical title** or a **short poem**. This text should not be a description of the sample, but rather be seen as a piece of art.

Timeline & Deadlines

- **Submission Deadline: February 1, 2027.** Please, send your picture to aie2027@ugr.es including your complete name, title of the picture or poem and category (predoc, early postdoc or senior).
- **Notification of Acceptance:** April 15, 2027
- **Recognition & Awards:** All participants will be able to vote for up to two pictures of each category during the conference. There will be an award for each Category: Predoc, Early Postdoc and Senior.
